B – Group Exercise Studio B

*Schedule Updated 05/02/2026

*Thursday, May 7th
 10 AM and 11:15 AM
 Line Dance Classes are canceled

Group Exercise Class Descriptions

Barre combines elements of Pilates, dance, yoga, and functional training to sculpt, slim, and stretch the entire body.

Bodyworks is a workout for your whole body! The first half of class is a cardio workout, which includes a mix of kickboxing, dance, or jogging, and the second half of the class is dedicated to toning using hand weights, resistance bands, stability balls, rings, and Pilates.

Dance Fitness allows you to dance your heart out to popular songs while getting an aerobic workout.

Group Cycling builds endurance and trains leg muscles to be strong while being kinder to knees and ankles due to minimal weight bearing. These classes are taught on stationary bikes but simulate outdoor riding, including sprinting, hill climbing, and other techniques.

Line Dance is a step-by-step instruction of dances done in unison and then set to music. Taught in the tradition of country western line dance, but using a variety of music genres. It is the perfect exercise for working on coordination and balance and for increasing brain memory. Beginner classes will be available every few months to catch everyone back up to speed for regular classes, while advanced classes will be available for those who come to class regularly and are looking for a little extra.

Low Impact Dance Fitness allows you to dance your heart out to popular songs while getting an aerobic workout that is a gentle way to get exercise benefits without placing too much stress on muscles, tendons, and joints.

Pilates is a class that will lead you through a series of non-impact exercises to develop strength, flexibility, balance, and inner awareness. Emphasis is put on developing a strong core and control of the body.

Pumped Up Strength - dynamically integrates your upper and lower body for a workout that combines strength and cardio, revs your metabolism, and trains your body in a whole new way! If you enjoy lifting weights, then this class is for you!

RIP is a class with pre-choreographed routines that are challenging and effective for all fitness levels. It utilizes different weights, and your instructor will lead and motivate you through a full-body workout that focuses on various muscle groups.

Sculpt 45 – A 45 Minute full body sculpt class that uses light weights, props, and cardio intervals to build strength, tone muscle, and burn calories.

Strength & Sculpt is a fun, calorie-blasting fitness class that combines aerobic exercise with muscle sculpting exercises utilizing hand weights.

SilverSneakers Classic is a low-impact class that leads you through a variety of exercises designed to increase muscle strength, range of movement, and activities for daily living. Hand-held weights, elastic tubing with handles, and a ball are offered for resistance; a chair is used for seated exercises and standing support.

SilverSneakers Yoga is a low-impact class that leads you through a complete series of seated and standing yoga poses. Chair support is offered so you can perform various seated and standing postures designed to increase flexibility, balance, and range of movement. Restorative breathing exercises and final relaxation will promote stress reduction and mental clarity.

Tabata Strength involves short bursts of intense exercise followed by brief rest periods. Each class will offer a series of challenging moves that target different muscle groups. Get ready to push yourself to the max during each 20-second work interval, knowing that a 10-second recovery period will soon follow. Options will be offered for all fitness levels.

Yoga focuses on breath control, meditation, and deep stretching to improve overall health and relaxation.
